PROFESSIONAL SUMMARY

Motivated and detail-oriented AI/ML Engineer with strong knowledge of Machine Learning, Deep Learning, Data Analysis, and Predictive Modeling. Experienced in developing end-to-end AI solutions using Python, TensorFlow, Keras, Scikit-learn, Pandas, and NumPy. Skilled in data preprocessing, feature engineering, model optimization, and deployment using Flask APIs. Passionate about solving real-world problems using Artificial Intelligence and Data Science.

TECHNICAL SKILLS

Programming Languages

- Python
- SQL

Machine Learning & Deep Learning

- Machine Learning
- Deep Learning
- Supervised Learning
- Unsupervised Learning
- Model Evaluation
- Feature Engineering
- Predictive Analytics

Frameworks & Libraries

- TensorFlow
- Keras
- Scikit-learn
- Pandas
- NumPy
- Matplotlib
- Seaborn

NLP & Computer Vision

- Natural Language Processing (NLP)
- Text Classification
- Resume Screening Systems
- Computer Vision
- Image Classification
- CNN

Databases

- MySQL
- SQL Queries
- Database Management

Data Visualization

- Power BI
- Tableau
- Matplotlib
- Seaborn

Deployment & Tools

- Flask
- REST APIs
- Git
- GitHub
- Docker
- AWS
- Azure

Big Data Technologies

- Apache Spark
- Hadoop

EDUCATION

Bachelor of Technology (Computer Science Engineering)

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Expected Graduation: 2027

CGPA: 8.5/10

PROJECTS

AI-Based Resume Screening and Candidate Ranking System

Technologies: Python, Machine Learning, Flask, Scikit-learn, Pandas, NumPy

- Developed an AI-powered resume screening application.
- Implemented resume classification using TF-IDF and Support Vector Machine (SVM).
- Built candidate-job matching functionality using cosine similarity.
- Automated candidate ranking and shortlisting process.
- Generated Excel reports containing shortlisted candidates.
- Designed a Flask-based web application for resume upload and analysis.

Resume Matcher using NLP

Technologies: Python, NLP, Scikit-learn

- Extracted resume and job description keywords.
- Performed semantic similarity matching.
- Ranked candidates according to job requirements.
- Improved recruitment efficiency through automated screening.

Image Classification using CNN

Technologies: TensorFlow, Keras, Deep Learning

- Built a Convolutional Neural Network for image classification.
- Performed image preprocessing and augmentation.
- Achieved high validation accuracy on benchmark datasets.

Sentiment Analysis using NLP

Technologies: Python, NLP, Machine Learning

- Developed sentiment classification models.
 - Applied text preprocessing and feature extraction.
 - Visualized results using data visualization tools.
-

EXPERIENCE

Machine Learning Intern

ABC Technologies Pvt. Ltd.

May 2025 – July 2025

- Built machine learning models for business analytics.
 - Performed exploratory data analysis on large datasets.
 - Created dashboards and reports for stakeholders.
 - Collaborated with developers to integrate ML solutions into applications.
 - Improved model performance through hyperparameter tuning.
-

CERTIFICATIONS

- Machine Learning with Python
 - Deep Learning Specialization
 - Data Science and Analytics
 - TensorFlow Developer Fundamentals
 - SQL for Data Science
 - Power BI Fundamentals
-

ACHIEVEMENTS

- Developed multiple AI/ML projects using industry-standard tools.
 - Built end-to-end resume screening and ranking solutions.
 - Participated in coding competitions and hackathons.
 - Strong analytical and problem-solving skills.
-

SOFT SKILLS

- Problem Solving
 - Communication
 - Teamwork
 - Critical Thinking
 - Time Management
 - Analytical Reasoning
-

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
