Objective

To apply my skills in full-stack development and mobile apps to deliver impactful solutions and continuously grow with emerging technologies.

Skills

Programming Languages: C++, Python, JavaScript

Frameworks & Libraries: React, pandas, numpy, matplotlib

Databases: MySQL, Firebase

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebooks, Google Colab

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming (OOP), Basic Data Science

Projects

NHANES_DATASET file

- Created a capstone Project dataset file based on the dataset given by Nhanes for adult male and female Bmx in 2020.
- Developed using numpy, pandas, matplotlib libraries , performing data cleaning, preprocessing, visualization.
- Performed various tasks, made various types of plots and computations.

Todo App

- Designed a user-friendly application for scheduling day to day events which are very helpful for scheduling.
- Developed using React Js.

Certifications

- Corizo Certified : Data Science
- Cisco : Networking Essentials
- Rinex Certified : Python Programmer
- Nasscom certified : Introduction to IOT and digital transformation

Education

Lakshmi Narain College of Technology Main, Bhopal, 2023-2027

- B.tech CSE
- CGPA: 7.26

St. Joseph's Sr. Sec. School, Pipariya, M.P. , 2022-2023

- CBSE Board (Class XII)
- Aggregate: 93.2%

St. Joseph's Sr. Sec. School, Pipariya, M.P. , 2020-2021

- CBSE Board (Class X)
- Aggregate: 75.2%

Achievements

- Maintained 25 days streak on CodeChef, Collected Silver Badge.
- Solved 200+ question on CodeChef, Collected Silver Badge.
- Scored 90% in Python Challenge on CodeChef.
- SIH 2025 participant

Work Experience
